Benefit from a digital control, built-in over-temperature protection and a flexible vacuum/purge/release system with Thermo Scientific™ Lindberg/Blue M™ Vacuum Ovens. These ovens work well with a range of applications including drying, curing, outgassing, aging, process control and other applications requiring elevated temperature in reduced atmospheres or vacuum/purge with nonflammable and inert atmospheres.

Lindberg/Blue M™ Vacuum Ovens - Thermo Fisher Scientific

Applications for Lindberg/Blue M Tube Furnaces include high temperature air and atmosphere processes in horizontal or vertical configurations. Single and three-zone designs create precise temperature uniformity. Temperature controllers offer a range of sophistication, including microprocessor-based single and multi-setpoint programmable controls.
